## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6, 15-18, and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by LIEDTKE et al. (5373423). Fig.1 shows a housing "18" with a light unit "14" and a pertaining reflector "10" and a covering pane "20". A screen "28" constructed as a semi reflecting mirror arranged between the covering pane "20" and light unit "14". Re claims 2-6, the screen "28" comprises a clear plastic base plate with a vapor deposited semi reflecting metal coating contoured in the shape of the light unit, see col.3, lines 1-11 and 45-50. Re claims 15-18, note in Fig.1 that the screen "28" is fastened to an interior side of the housing. Re claim 24, note that since the screen "28" is in front of the light unit "14" and reflector "10", they are inherently designed for interaction with the screen "28" in front of them.

### ***Allowable Subject Matter***

3. Claims 7-14 and 19-23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 2875

**Conclusion**

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bosch Gmbh (DE 3148668 A1) is cited of interest for showing a screen between a lamp and lens cover.
